

Quick Start Guide:

Setting up your WiFi and App

- 1** Download the app. You can search either the Apple App Store or Google Play Store for 'CTC Command Center', then install it on your mobile device.

- 2** Select "SIGN UP" towards the bottom of the screen.

- 3** Enter your personal information. The password you enter here will be used to access the app.

Registration

CTC Command Center

Create your account so this app can communicate with your home network.

Please use a secure password as this app allows changes to your home network.

First Name

Last Name

SUBMIT

Note: Please wait at least 10 minutes after your GigaSpire has been 'turned up' before attempting step 4.

- 4** Tap the QR code that appears within the app. (You will be asked to allow the app to access your camera.)

Point your camera at the QR Code found on the bottom of your GigaSpire, or on the sticker that came in your box (example shown below).

Router - Configuration

Please Scan QR code from router OR enter details below

Enter router details

MAC Address

Serial Number

SUBMIT

- 5** Select OK.

- 6** Name your network and create a password.

- The Router Name will be used throughout the app.
- The Network Name (SSID) is what you will use as your wireless connection name.
- Select a password for your wireless network. If you do not want to change it on all the devices in your home, use your existing wireless SSID and Password from your current router.
