

CTC Command Center Quick Start Guide Your Wi-Fi, Your Rules

Take control of your home Wi-Fi in minutes.

CTC Command Center gives you one simple place to manage your network, devices, and security, right from your phone.

Get Set Up in 6 Simple Steps

Step 1

Download the App

Search for CTC Command Center in the Apple App Store or Google Play and install it.

Your phone becomes your Wi-Fi control center.

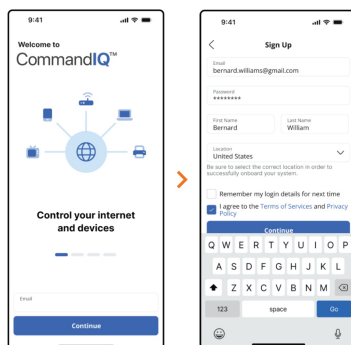

Step 2

Create Your Account

Enter your email, location, and password to sign in.

This securely connects you to your home network.

Step 3

Choose Your Setup Type

Select the option that fits your setup:

- New installation
- Replace existing equipment
- Add to an existing network

The app will tailor the setup steps to your selection.

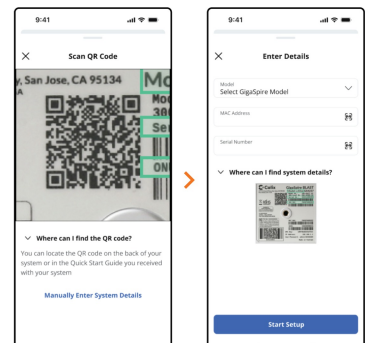

Step 4

Connect Your System

Scan the QR code on your router or enter details manually.

This links your app directly to your Wi-Fi equipment so you can manage it.

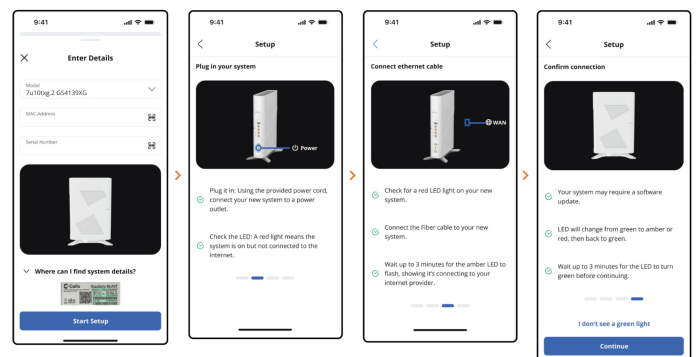

Step 5

Follow Guided Setup

Complete the step-by-step instructions in the app:

- Confirm your network name and password
- Connect your devices
- Finalize settings

Everything is guided to ensure your network is set up correctly.

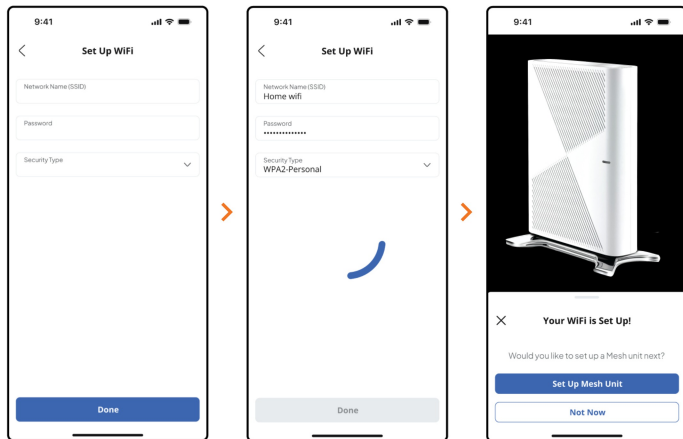

Step 6

Customize Your Wi-Fi

Personalize your network:

- Update your Wi-Fi name and password
- Add people and devices
- Run a speed test
- Turn on controls and security

Now your Wi-Fi is set up to match your household.

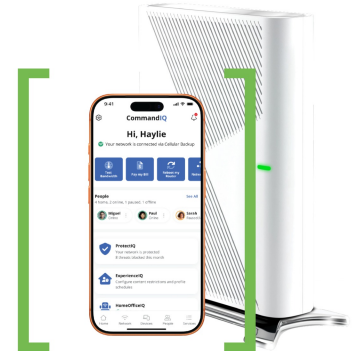

Your Home Dashboard

Once setup is complete, everything you need is in one place:

- See all connected devices
- Monitor network activity
- Access tools instantly

Simple visibility. Complete control.

What You Can Do with CTC Command Center

Quick Access to Everyday Tasks

Pay your bill, update Wi-Fi settings, and run speed tests directly from your home screen.

Less searching. Faster actions.

Manage People & Devices

Create profiles, view connected devices, and identify unfamiliar connections.

Always know what's on your network.

Control Internet Usage

Pause internet, set screen time limits, and filter unwanted content.

Manage how and when your Wi-Fi is used.

Protect Your Network

Built-in security helps protect all connected devices and block potential threats.

Protection works in the background, no extra effort required.

Optimize Your Experience

Prioritize your Wi-Fi for what matters most with Work, Entertainment, and Gaming Modes.

Your Wi-Fi adapts to what your household needs.

Why CTC Command Center

Visibility > See everything on your network

Control > Manage devices instantly

Security > Protection across your home

Flexibility > Wi-Fi that adapts to your needs

**Open the app and take control
of your Wi-Fi**
